

Final Project

Introduction

An analysis of the COVID-19 cases in Kerala.

Data

Data is retrieved from the following [website](#).

Methodology

An analysis of the COVID-19 cases in all the 14 districts of Kerala were done. A line graph was used to display the analysis.

Results

The district of Kasaragod (KSD) had the greatest number of cases, followed by Kannur (KNR) and Ernakulam (EKM).

Discussion

More vigilance is required in the district of Kasaragod.

Conclusion

Except KSD, other districts have a significantly smaller number of cases.
